

BIOGRAPHY:

Dr. Erin Carey is an expert in the medical and surgical care of benign gynecologic conditions including abnormal uterine bleeding, uterine fibroids, transgender health, endometriosis and chronic pelvic pain. She has served on the national Fellowship Board of Minimally Invasive Gynecologic Surgery (FMIGS) and the interdisciplinary board of the International Pelvic Pain Society. She is a NIH funded clinical scientist and her long-term goal is to develop personalized mechanism-based treatment strategies for patients with complex gynecologic conditions.
